## CERAMIC COATING

### QUANTUM CERAMIC COATING

Quantum Ceramic Coating contains a unique molecular coupling agent that chemically bonds to clear coat surfaces. Fusing at the molecular level, it creates a hydrophobic coating which delivers an amazing gloss and provides the best protection against the most common causes of damage:

- *Oxidation*
- *Ultraviolet Light*
- *Dirt & Grime*
- *Chemical Contaminants*

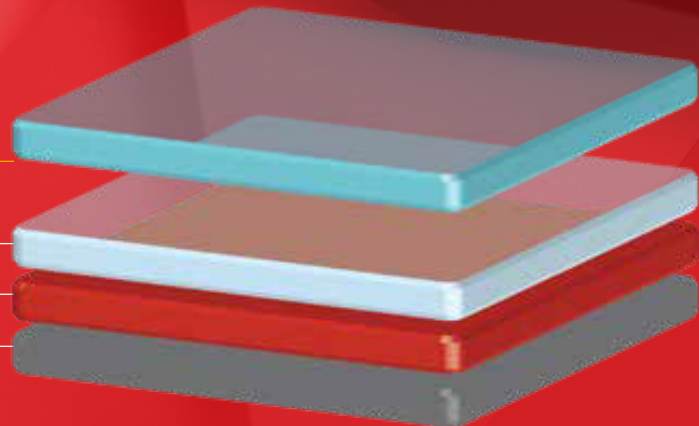

### HOW IT WORKS

# THE BEST SURFACE PROTECTION FOR ANY VEHICLE'S EXTERIOR AND INTERIOR.

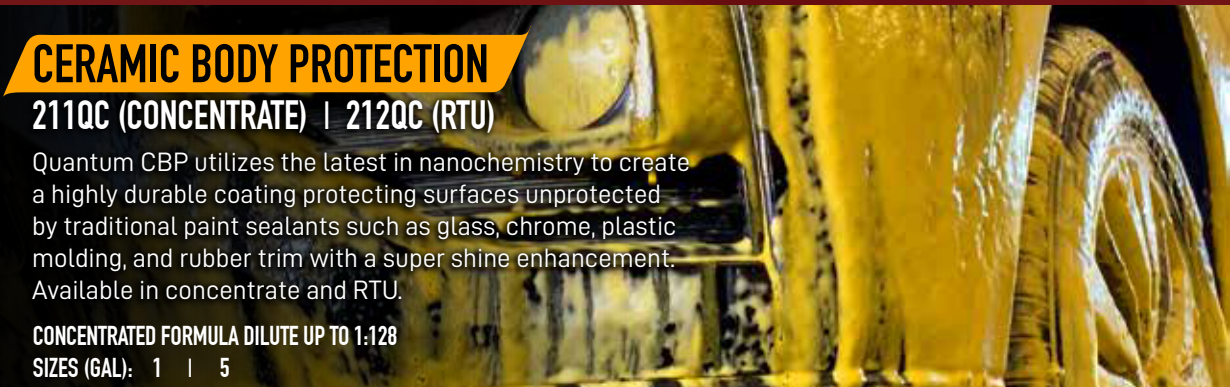

## CERAMIC BODY PROTECTION

211QC (CONCENTRATE) | 212QC (RTU)

Quantum CBP utilizes the latest in nanochemistry to create a highly durable coating protecting surfaces unprotected by traditional paint sealants such as glass, chrome, plastic molding, and rubber trim with a super shine enhancement. Available in concentrate and RTU.

CONCENTRATED FORMULA DILUTE UP TO 1:128

## FABRIC PROTECTANT

600QC (WATER-BASED) **VOC** | 601QC (SOLVENT-BASED)

Designed to protect the original beauty of your vehicle's fabric and carpet, this specially formulated polymer penetrates and coats each fiber with an invisible protection barrier. Great against water and oil-based stains without altering the texture or color of the carpet or fabric. The formula also prevents UV fading.
